About us

We are a specialty chemicals company, leading the way in delivering innovative solutions for the construction and industrial sectors. We specialize in advanced systems for bonding, sealing, damping, reinforcing, and protecting materials across the building and automotive industries. With a steadfast focus on sustainability, reliability, and innovation, we are dedicated to providing long-lasting, high-quality solutions that exceed expectations. Our commitment to excellence fosters trust and collaboration with employees, customers, and stakeholders alike.

Vision

To shape a sustainable future by leading the specialty chemicals industry with innovation, reliability, and excellence. By delivering groundbreaking solutions for the building and automotive sectors, we aim to be a global leader recognized for our commitment to quality, trust, and sustainability.

Brand Core Values

At DAIC, our success is built on a foundation of trust, innovation, and dedication. Guided by an entrepreneurial spirit and a clear vision for the future, we empower our teams to deliver excellence in every endeavor. We are committed to:

Quality:

Ensuring every product meets the highest standards.

Sustainability:

Driving solutions that support a greener, more sustainable future.

Innovation:

Pioneering advancements that redefine industry standards.

Trust:

Building lasting relationships through reliability and integrity.

Tiling and Stone Adhesive Solutions

Achieve robust, long-lasting bonds with our high-performance adhesive products, designed for all surface types. Ideal for residential and commercial applications, these adhesives combine superior adhesion and flexibility for reliable tiling and stone installations.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

Protective Coatings and Surface Treatments

Extend the life of your materials with protective coatings and treatments that offer exceptional resistance to corrosion, abrasion, and environmental factors. Perfect for preserving surfaces across various industries, these solutions ensure enhanced performance and durability.

Waterproofing Solutions

Protect building structures from water damage with our comprehensive waterproofing systems. From waterproofing mortars and injection solutions to preformed membranes and joint treatments, our products safeguard against moisture and water ingress effectively.

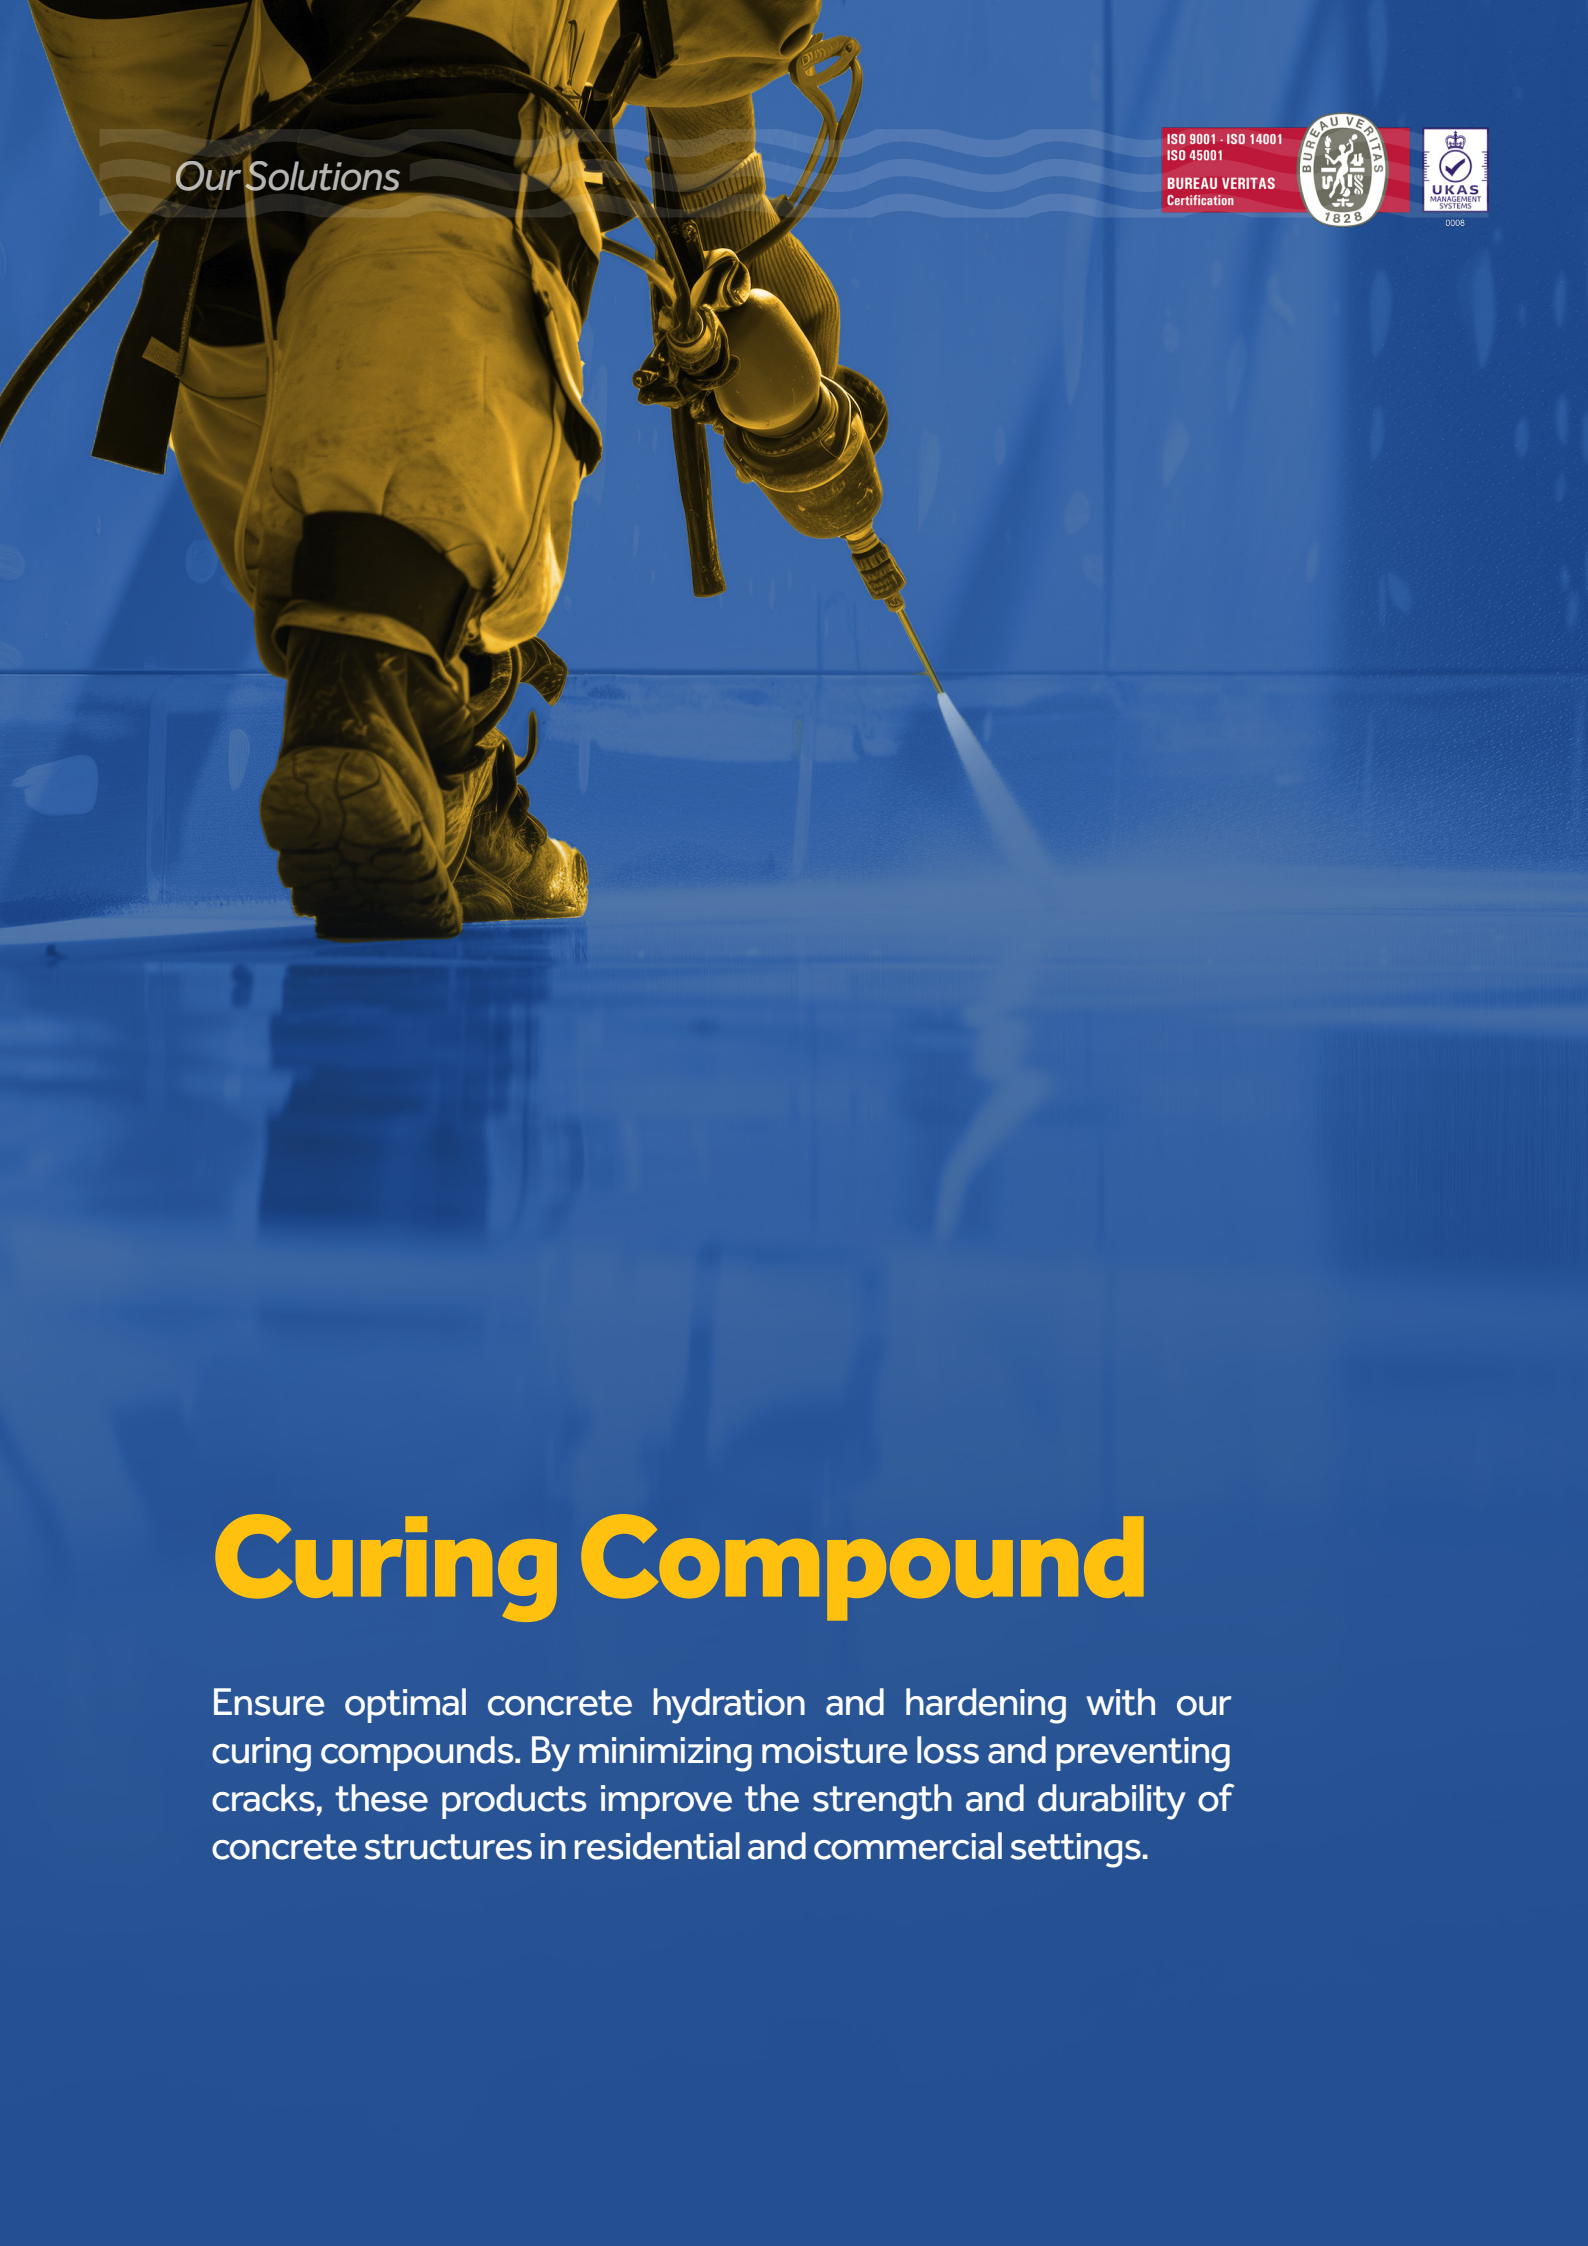

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

Anti-Corrosive Coatings

Guard metal surfaces against rust and degradation with advanced anti-corrosive coatings. Designed for long-term protection, these solutions reduce maintenance costs while ensuring the durability and efficiency of metal structures.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

Curing Compound

Ensure optimal concrete hydration and hardening with our curing compounds. By minimizing moisture loss and preventing cracks, these products improve the strength and durability of concrete structures in residential and commercial settings.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

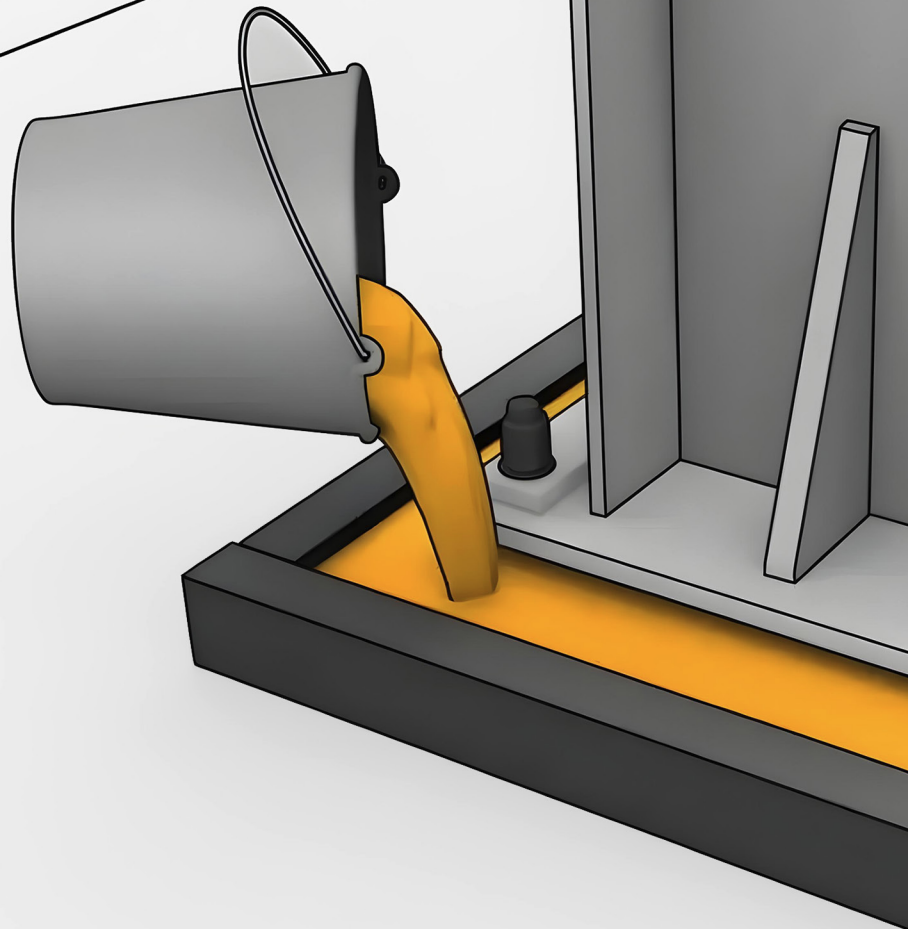

Industrial Floor Sufficient

Engineered to endure heavy traffic and harsh conditions, our industrial floor systems deliver outstanding durability. Resistant to abrasion, chemicals, and impact, they are ideal for factories, warehouses, and other demanding environments.

Engineering Grouts

Our precision-engineered grouts provide superior bond strength and durability for filling gaps, joints, and voids. Designed to ensure stability under challenging conditions, these grouts enhance the longevity of structures.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

Architectural Solutions

Enhance the aesthetic and structural integrity of buildings with architectural solutions that combine design excellence with sustainability. Tailored for residential, commercial, and industrial projects, these products offer lasting beauty and performance.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

Admixtures : concrete & non concrete

At DAIC, we provide high-performance admixtures—both concrete and non-concrete—that enhance strength, durability, workability, and sustainability in construction. From improving concrete's setting, bonding, and longevity to delivering advanced solutions in plaster, waterproofing, and surface treatments, our admixtures are engineered to ensure every project stands stronger, lasts longer, and performs better.

A large industrial facility, likely a steel mill, with a high ceiling and structural beams. In the center, a large ladle is pouring bright orange molten metal into a mold, creating a massive spray of sparks. The scene is dimly lit, with the primary light source being the intense heat of the molten metal.

Our Solutions

ISO 9001 - ISO 14001
ISO 45001
BUREAU VERITAS
Certification

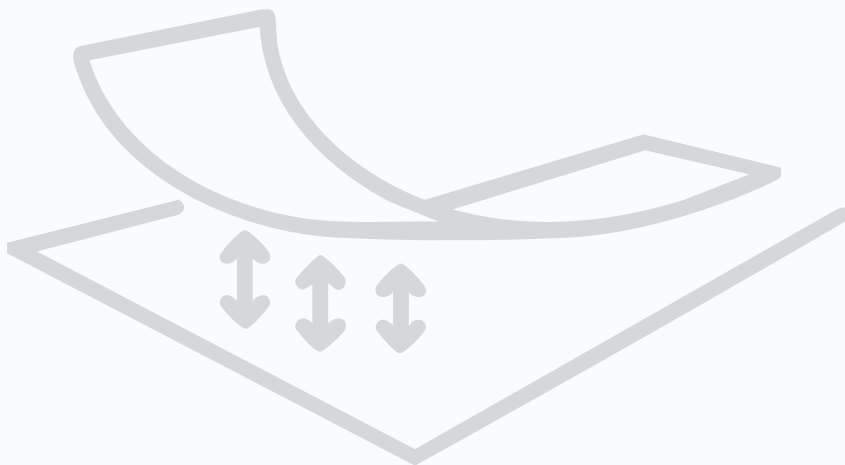

Refractory Solutions

DAIC delivers advanced refractory solutions designed to withstand extreme heat, pressure, and chemical exposure, ensuring maximum performance and safety in industrial operations. From high-quality linings and coatings to specialized materials for furnaces, kilns, and reactors, our refractory systems provide durability, efficiency, and long-term reliability for critical applications.

Repair Solutions

Maintain the integrity of your structures with our expert renovation and repair solutions. From below-ground foundations to rooftops, we ensure your projects remain in peak condition for decades, protecting your investment.

Why DAIC

Maintain the integrity of your structures with our expert renovation and repair solutions. From below-ground foundations to rooftops, we ensure your projects remain in peak condition for decades, protecting your investment.

Expertise You Can Trust: *Decades of experience in developing advanced chemical solutions tailored to industry needs.*

Sustainability at the Core: *A commitment to eco-friendly practices and long-term environmental stewardship.*

Innovative Approach: *Cutting-edge research and development to bring you the latest advancements in chemical technology.*

Customer-Centric Philosophy: *Dedicated to understanding and exceeding client expectations with tailored solutions.*

Global Vision, Local Focus: *Combining international standards with a deep understanding of the local market's unique challenges.*
